This P.O.W.E.R. Score Card is for anyone who is unclear about why they are not generating the income they desire, both in your business and in your career if you still have a full/part time job. It highlights the 5 P.O.W.E.R. Principles you need to truly be successful in any area of your life to help you understand your current position dealing with the energy of money and success.

Remember, **money is not a “thing.”** It is an energy dictated by your thought process, and in particular, **who you are BEING in regards to money and success.** This goes far beyond just the “limiting beliefs” we all hear about when it comes to money and success, though we’ll work on those for sure.

The truth of the matter is that while simply tackling your limiting beliefs will certainly generate a powerful transformation, **getting clear about the other FOUR elements in your thought process that dictate your results is crucial!**

It doesn’t really matter what income level you are currently at. Whether you earn 4 figures, 6 figures, 7 figures, or NO figures, the rules are the same, and **they are there to help you see what is not seen so that you can move to the next level of your game, authentically and powerfully!**
